

# Application for Community Support or Sponsorship

Clough actively supports a wide range of community organisations and activities both in Australia and overseas. Preference is given to initiatives that deliver ongoing broad benefits to education (particularly engineering and construction), the environment, health and safety and the communities in which we operate.

Clough does not support individuals, interstate or overseas travel, conferences, religious activities, projects that duplicate existing Clough activities or projects where there is a conflict of interest.

Requests for assistance are considered against criteria such as Clough's current objectives and activities, ability to meet with shareholder approval, the ongoing benefits of identified community programs and whether support has already been provided to the organisation in any given financial year.
