

# Basker Manta Subsea Installation

## PROJECT DETAILS:

Location:	Gippsland Basin, Victoria, Australia
Contract Value:	A\$35 million (2006)
Contract Period:	February 2006 - November 2006
Safety Statistics:	Manhours: 147,686 LTIFR: 0

## CLIENT: Upstream Petroleum

### Scope of Work:

Clough was awarded a subsea construction contract by Anzon Australia Limited (on behalf of Anzon Australia and Beach Petroleum) to perform the installation works associated with the development of the Basker and Manta oil fields.

The scope of work involved installation and tie-in of various subsea flowlines and control umbilicals. All construction activity is located in the Gippsland Basin, offshore Victoria in water depths of approximately 160 metres.

Clough chartered the CSO Venturer from Technip to undertake the work.
