

GFI Offshore Field Development Fabrication of WHP

PROJECT DETAILS:

Location:	Bualang Field, Gulf of Thailand
Contract Value:	\$10 million (2007)
Contract Period:	April 2007 - February 2008
Safety Statistics:	Manhours: 685,526 LTIFR: 0

CLIENT: ARV Offshore (Project Managers on behalf of GFI Oil and Gas Thailand Inc.*)

Scope of Work:

The Fabrication scope of the GFI Offshore Field Development Project was completed by Clough Thailand Limited (CTL) in early 2007. The contract included limited procurement, fabrication, load-out and seafastening of one 1200 tonne wellhead platform comprising of piles, jacket and deck.

The Jacket sailed away as planned in November 2007 with electrical and instrumentation work on the Topside completed prior to deck load out in December 2007. With the topside secured on its Jacket in the Gulf of Thailand, sailaway was finalised in the first week of January 2008.

** GFI Oil and Gas Thailand Inc. has now been purchased by Salamander Energy.*
