

PNG LNG Gas Gathering Plant EPC4

PROJECT DETAILS:

Location:	Papua New Guinea
Contract Value:	A\$1.8 billion (2009)
Contract Period:	December 2009 - Current
Safety Statistics:	Manhours: 1,625,399 LTIFR: 0 (As at October 2011)

CLIENT: Esso Highlands Limited

Scope of Work:

The CBI Clough Joint Venture is currently involved in the AU\$1.3 billion Engineering, Procurement and Construction (EPC) contract for the Hides gas conditioning plant in December 2009, as part of ExxonMobil's PNG LNG project.

The PNG LNG Project is an integrated development that includes gas production and processing facilities, onshore and offshore pipelines and liquefaction facilities. Participating interests are affiliates of Exxon Mobil Corporation (including Esso Highlands Limited as operator, 33.2 percent), Oil Search Limited (29.0 percent), Independent Public Business Corporation (PNG Government, 16.6 percent), Santos Limited (13.5 percent), Nippon Oil Exploration (4.7 percent), Mineral Resources Development Company (PNG landowners, 2.8 percent) and Petromin PNG Holdings Limited (0.2 percent).

The contract scope includes the EPC work for the gas conditioning plant, nearby wellheads and associated piping and infrastructure, to be located in the Southern Highlands of Papua New Guinea. The work is being performed by CBI Clough JV, a joint venture between US EPC contractor CB&I (65%) and Clough (35%).

The project has completed over 85% of the engineering component and has commenced civil construction activities with the construction of a pioneer and fly camp.

The project management team is located in Brisbane, with engineering and procurement being carried out in CB&I and Clough offices in Singapore and Perth, respectively.
